

My Dog Ivy

My hound dog Ivy,
She is cute, long
and big.
With little floppy ears
and a huge empty head.
Her front right paw permanently
in ballet's fifth position.
She came so far
from Virginia into
our home in Brookline.

In the shelter in
the Northeast, I saw
our little beast so hungry
for love.
She became part
of my family
While she threw up and peed
TWICE in our car.
We love her always!
